

# UV4500 SEAM SEALER

---

**DESCRIPTION:** Healthy Home UV4500 is a Universal Seam Sealer designed to be used with all types of broadloom carpet in direct or double glue down application. Including vinyl backed carpet and cushion-backed / fiberglass backed vinyl.

**DIRECTIONS:**

1. Cut all seam edges according to manufacturer's specifications.
2. Apply UV4500 to the cut edge of the carpet using the supplied applicator tip.
3. Use caution to not get UV4500 on the yarn.
4. Complete the seam by butting the pieces of carpet tightly together.
5. Wet adhesive can easily be cleaned using water when wet, dried adhesive will need to be removed using Mineral Spirits.
6. This material has a UV tracer that is visible under a black light.

**RESTRICTIONS:**

1. Interior installations only.
2. Do not use for any application it is not specifically designed for.
3. It is the sole responsibility of the installer to determine the suitability and compatibility of the adhesive for the users intended use.

**COVERAGE:** One quart (32oz) provides approximately 340 linear feet of 1/8" bead.

One pint (8oz) provides approximately 85 linear feet of 1/8" bead.

**WARRANTY:** Healthy Home Adhesives offers a limited liability warranty for this material when used in accordance with the label and TDS.
